

Photos for a Fabulous Cause!

Starting on April 1st, we will be doing an Easter photo booth. Bring your pet in for a \$2 Easter photo with props and costumes! All proceeds will be donated to the Winnipeg Humane Society. We thank you in advance for your generosity!

It's that time of year again...

Spring is just around the corner and you and your pets are probably itching to go and spend time outdoors after a long winter. This warmer spring weather, however, brings two new challenges to both you and your pet: ticks and mosquitos. Ticks emerge as soon as the snow melts in the spring. They are notorious for carrying and transmitting Lyme disease, a serious and potentially life-threatening illness to both humans and pets. We advise owners who are planning on spending time outdoors with their pets to consider vaccinating them against Lyme disease. We also recommend using tick prevention starting April 1st to best and your pets. Heartworm is a parasite that can be transmitted to both dogs and, occasionally, cats by mosquito bites and can cause serious health complications in your pet. Heart worm prevention is given once a month for 6 months, beginning around May 15th.

For more information on both tick and heart worm prevention, please contact us at Seasons Vet Clinic. We would be more than happy to answer any of your questions!

February Prize Winners

Congratulations to our two prize winners for the month of February! Lola (left) was the winner of our Rayne Food presentation door prize of yummy treats. Pepper (right) won her people the February newsletter iHop gift card!

Word Scramble!

Unscramble the following letters to spell two words! The first person to phone in with the correct words wins a \$20 gift card to Jugo Juice! And the second person wins a \$10 gift card to Pronto Pizzeria!

Rayne Food Presentation Recap

On Saturday February 16th we hosted our first in-clinic presentation. We would like to thank our Rayne Food rep Wanda for coming in and giving such an informative presentation on pet nutrition.

Upcoming Events at the Clinic

Saturday March 16th at 10:00am - Dr. Leigh Chisholm will be hosting an information session on Lyme disease.
